**Intro to Healthcare Careers**  
**Disease Transmission and Infection Prevention**

List 5 types of disease causing microorganisms and list an example of each. Later you will write in how that disease is transmitted

| Type of Microorganism | Example | Transmission |
|-----------------------|---------|--------------|
| 1)                    |         |              |
| 2)                    |         |              |
| 3)                    |         |              |
| 4)                    |         |              |
| 5)                    |         |              |

6) What are the FOUR main categories of disease Transmission

- a) \_\_\_\_\_
- b) \_\_\_\_\_
- c) \_\_\_\_\_
- d) \_\_\_\_\_

7) Definitions

- a) Donning \_\_\_\_\_
- b) Doffing \_\_\_\_\_
- c) PPE \_\_\_\_\_

8) When doffing "contaminated" gloves, what was your greatest challenge? \_\_\_\_\_  
\_\_\_\_\_

9) For a highly infectious, highly fatal disease like Ebola, why are 2 people required for donning and doffing PPE? \_\_\_\_\_
